

Bavarian Nordic is One of the Largest Pure-Play Vaccine Companies Globally

Bavarian Nordic is a fully integrated vaccine company focused on the research and development, manufacturing, and commercialization of life-saving vaccines.

We are a global leader in smallpox and mpox vaccines, which have been developed through our long-standing

partnership with the U.S. government to enhance public health preparedness, and have a strong portfolio of vaccines for travelers and endemic diseases. Our manufacturing sites and network of manufacturing partners provide both reliability and flexibility as a vaccine supplier.

Our Global Presence in 2024

Founded in 1994 as a collaboration between Danish investors and German scientists, we have expanded our presence and operations globally.

- Covered by Bavarian Nordic
- Covered by distribution partners

We are a pioneering force in vaccines – expanding our reach and impact through life-changing solutions. Protecting lives every day is an essential part of our DNA in Bavarian Nordic, and we aspire to develop vaccines that address unmet medical needs for the greater good of the global society.

Committed to Helping Save and Improve Lives

Pioneering Research & Development

Strong heritage in vaccine development and cutting-edge technology drives our innovation to fight existing and emerging diseases

Expertise in Vaccine Manufacturing

Expertise in vaccine manufacturing and fill-and-finish capabilities enables our end-to-end commercial-scale manufacturing

Commercial Excellence

Established commercial infrastructure with presence in key US and EU markets drives profitable growth of our expanding vaccine portfolio
